The shed has a modern hoist, a compressor and three phase power with two 6.5kva solar panel systems making it ideal for continuation as a mechanical or even as an engineering business. It could be utilised in many other ways depending on your business expansion needs.

Running the length of the block of land there is a HUGE area to even share business spaces with two offices/bedrooms, kitchen and bathroom facilities, as well as a mezzanine for even more extra storage. There is a fenced yard area to the left of the office entrance for parking vehicles or to display goods for walk in customers.

A lot of love has been given to this workshop and the current owner has made many improvements since they purchased. The solar alone cost \$50,000 to install and is a game changer with savings on power.

This is GREAT VALUE! This could be the opportunity that you have been waiting for. With Emerald being central to Queensland's mining and primary industries, an affordable workshop and manager's residence like this can be your stepping stone to carving out an exciting business opportunity.
